

MAKE MONEY BY MAKING THE SWITCH

If you need a prescription medication or find yourself refilling a prescription on a regular basis, we have identified another opportunity to create savings for The Phia Group Health Benefit Plan, and award you with a portion of the savings!

TO GET YOUR MONEY:

1. HR will work with Scripta to identify the medication, calculate how much we pay per use, how often it is refilled, and what we spend per year.
2. They will then identify what it would cost to purchase the medication on Amazon Pharmacy.
3. If the cost of purchasing the medication on Amazon Pharmacy is less, you will be notified about the opportunity to purchase and refill your medication on Amazon Pharmacy.
4. If you choose to proceed, HR will help you with the switch, and you will receive **20%** of the savings.

GET 20% BACK!
