

EMPOWERING PLANS

The Phia Group, LLC Announces Exclusive U.S. Relationship with Jason Davis

September 2, 2014; Braintree, MA

The Phia Group LLC, one of the health benefit industry's leading cost-containment service providers, announces that we have agreed to a U.S. exclusive consulting agreement with Jason C. Davis. Mr. Davis will assist The Phia Group with sales and product development.

"We have grown so quickly in the last few years; we want to invest in both our existing products as well as business development infrastructure; with an eye toward future offerings," stated Adam Russo, CEO of The Phia Group. "Jason is here to help us reach the next level."

Prior to becoming an independent consultant, Jason Davis was Vice-President US Markets for Global Excel Management, where for nearly 10 years he contributed at various levels of claim settlement, dispute resolution, R&D, product development, and sales.

"Though I consult in other markets, I wanted one exclusive, long-term strategic partnership in the United States; and Phia's innovative, forward thinking attorneys - with their energy, market presence, and industry know-how - just seemed like a good fit for me," stated Jason Davis. "I look forward to collaborating with The Phia Group and their clients to help build products and services that are uniquely valuable, and distinctly Phia."

About The Phia Group, LLC

Please visit us at www.phiagroup.com.
